DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 6, 9, 10 and 14 are allowed over prior art of record.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

After further search and consideration of Applicant's arguments of March 3, 2007, the prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "a third step of thermally oxidizing the patterned band-shaped first polysilicon layer, thereby to form a second insulating film which is thicker at side surfaces of the first polysilicon layer than at the front surface thereof," as recited in claim 1, "thermally oxidizing the band-shaped segment to simultaneously grow a second insulating film on side surfaces and the front surface of the first polysilicon layer, wherein the second insulating film is grown thicker on the side surfaces of the first polysilicon layer than on the front surface of the polysilicon layer implanted with nitrogen ions," as recited in claim 9 respectively.

Claims 6, 10 and 14 are also allowed as being dependent of the independent base claim.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
